3. Additional Noted Improvements From The Original Legends HD Versions:

a. All original Gottlieb aprons have been remastered.
b. Corrected an issue where some tables would stop when Player 1 achieved a high score and not allow Players 2-4 to continue their games.
c. The "Ready Aim Fire" coin animation on Pistol Poker's backglass now works in cabinet mode.
d. Fixed a graphical glitch on the right side of the playfield in Black Hole.
e. Bone Busters Inc. now includes instructions in the table guide for controlling the flipper/gate in the top right for making skill shots.
f. Bone Busters' Inc. apron text that was cut off was resolved.
g. Fixed Bone Busters Inc. camera distortion when viewing certain chapters on the Table Guide.
h. Centigrade 37 graphical asset in the top left corner is no longer partially cropped off the screen.
i. Fixed an issue where a Goin' Nuts bumper hung off the screen.
j. Resolved Goin' Nuts Table Guide visual glitch when going through the pages.
k. Rescue 911 "Flipper Shot" message that was partially cropped off the screen has been fixed.
l. Tee'd Off black distortion covering most of the plunger has been corrected.

4. Known Issues Being Worked On:

a. The accelerometer cannot be disabled using either the in-game or system settings. This is currently a global issue within CE-4K for all titles.
b. Master Volume in-game settings do not function on non-SSF enabled devices.
c. Playfield Artwork Preview is showing an older HD version.
d. Tables that support the entry of high score initials on the DMD or Backglass do not remember the initials of the previous player. In certain cases, these same tables will post scores using the previous player's initials without prompting the current player for their initials.
